

## Railway employees killed while on duty

This list is dedicated to the memory of all railwaymen who died while performing their duties for the various railway operators, service companies and builders in Western Australia.

My efforts in compiling this listing were made much easier by the solid foundation of information gathered and collated by *Jeff Austin of Rail Heritage WA* and the invaluable research undertaken by *Mrs. Maxine Smyth of Swan View*.

**Readers are advised that contemporary newspaper reports, particularly those prior to 1920, sometimes contain explicit descriptions of the injuries sustained by the deceased person. Some readers may find these descriptions offensive and/or in bad taste.**

This list is created from the detailed database compiled by Rail Heritage WA researchers, and more information can be found on the society's web site.
