GUARD CUT TO PIECES
TIMBER TRAIN DERAILED AT NORTH DANDALUP
Perth, Oct. 19.
When one of two trucks of a timber train ran off the rails about two miles from North Dandalup yesterday, Eli Scott (50), a guard on the train, was thrown beneath another truck and killed, his head, an arm and a leg being severed from his body. The train, which consisted only of two trucks laden with timber, was being drawn by Whittaker's timber mill locomotive from the mill. Scott was riding on the derailed truck, and when the mishap occurred was thrown under the other truck, which was still moving. The body was removed to the Pinjarra morgue.

Scott is survived by a widow and a married daughter.
